Dear Ms Jessica Laux:

Application No.:	**10/628,100**
Owner:	William Maurice Jamieson
Title:	**Snap Track Decorative Moldings**
Subject:	Responses to letter dated 12/07/2006

I received your letter dated 12/07/2006. This letter is a response to the objections contained therein. In order to respond appropriately to your letter, the patent document has been revised in some areas and is attached to this document. All figures remain the same and as a result, have not been resubmitted.

I have included a summation of cited patents, specifically Wright (6,588,165) and Bobath (4,385,850) with substantive grounds for my application being granted. We have studied the structural and technical aspects of the three patents and believe that the differences are such that a person skilled in the art would be able to distinguish between the claims as contemplated by the inventor.

The format of my letter includes a summary page for the objections and changes cited. This is followed by references to the "claims" of both Wright and Bobath and how my invention claims differ from their claims. My letter concludes with a statement of the inventor. An attachment to my letter consists of several patent revisions that reflect both changes to your objections and further clarifications on my part.

	Objection	Action
1.	page 1, para. 1 "he" to "the"	changed
2.	misnumbering	renumbered
3.	claims 4-5, 9-10	amended
4.	page 3, para 1	add to specification
5.	page 3, claims 3,6,7, 11-14	addressed
6.	page 3, para 3 "four-sided blocks"	changed
7.	page 3, para 4 claim 6, 11-13	changed
8.	page 4, para 1,2 antecedents	changed
